

Alcohol-Enhanced Flux Remover ProClean™

- Low-cost cleaner for rosin, water-based and no-clean fluxes
- Use on solder pastes, fluxes and fresh chip bonder
- Plastic-safe
- Medium drying increases cleaning time when working with baked-on flux residues
- Ultra-pure alcohol blend delivers increased cleaning strength compared to isopropyl alcohol
- ESD-safe
- **NEW Economy size with 33% more cleaning agent**

Product Information

Alcohol-Enhanced Flux Remover - *ProClean* is a proprietary blend of alcohols engineered specifically to quickly clean rosin fluxes, synthetic fluxes and most no-clean fluxes/pastes from all types of electronic assemblies, circuit boards and associated assembly equipment.

This low cost cleaner has a slower evaporation rate and dries residue-free. It is also effective in cleaning oils and grime often found on electronics and is compatible with nearly all electronics grade materials and substrates. Use with confidence to clean assembly line items such as SMT stencils, components, boards, displays, cables and connectors.

Dispense directly from the can or use with the *MicroCare TriggerGrip* cleaning system for faster, safer, and more economical cleaning of printed circuit boards at the work bench. Also available in presaturated wipe packaging.

AVAILABILITY: Stocked by MicroCare distributors world-wide. Contact MicroCare for a distributor near you. For more information contact MicroCare directly or visit www.MicroCare.com.

Not all products and packages available in all regions and territories. Not suitable for use in vapor degreaser.
