Recommended use of the chemical and restrictions on use

**Application**
Cleaning agent.

Details of the supplier of the safety data sheet

**Supplier**
MICROCARE CORPORATION

**Manufacturer**
MICROCARE CORPORATION
595 John Downey Drive
New Britain, CT 06051
United States of America
CAGE: OATV9
Tel: +1 800 638 0125, +1 860-827-0626
Fax: +1 860-827-8105
techsupport@microcare.com

Emergency telephone number

**Emergency telephone**
CHEMTREC 1-800-424-9300 (within the U.S.)
+1 703-741-5970 (from anywhere in the world)

2. Hazard(s) identification

**Classification of the substance or mixture**

**OSHA Regulatory Status**
This Product is Hazardous under the OSHA Hazard Communication Standard.

**Physical hazards**
Flam. Aerosol 1 - H222

**Health hazards**
Not Classified

**Human health**
Splashes in the eyes may cause redness and irritation. Keep out of the reach of children. See Section 11 for additional information on health hazards.

**Physicochemical**
Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50°C. Do not pierce or burn, even after use.

Label elements

**Pictogram**

Revision date: 2/23/2018
Revision: 63
Supersedes date: 8/10/2017
DC1 - NO-CLEAN FLUX REMOVER - VERICLEAN, AEROSOL

Signal word
Danger

Hazard statements
H222 Extremely flammable aerosol.

Precautionary statements
P210 Keep away from heat, sparks, open flames and hot surfaces. No smoking.
P211 Do not spray on an open flame or other ignition source.
P251 Pressurized container: Do not pierce or burn, even after use
P410+P412 Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.
P501 Dispose of contents/ container in accordance with national regulations.

Supplemental label information
Safety data sheet available on request. For use in industrial installations only.

Other hazards
This product does not contain any substances classified as PBT or vPvB.

The full text for all hazard statements is displayed in Section 16.

Composition comments
TSCA: The ingredients of this product are on the TSCA Inventory. The exact percentage (concentration) of composition has been withheld as a trade secret in accordance with paragraph (i) of CFR 1900.1200.

Composition

4. First-aid measures

Description of first aid measures

General information
Promptly remove any clothing that becomes wet or contaminated. Move affected person to fresh air at once. Get medical attention if any discomfort continues.

Inhalation
Move affected person to fresh air at once. When breathing is difficult, properly trained personnel may assist affected person by administering oxygen. Keep affected person warm and at rest. Get medical attention immediately.
DC1 - NO-CLEAN FLUX REMOVER - VERICLEAN, AEROSOL

Ingestion
Do not induce vomiting. Rinse mouth thoroughly with water. Give plenty of water to drink. Never give anything by mouth to an unconscious person. Consult a physician for specific advice.

Skin Contact
Remove contaminated clothing and rinse skin thoroughly with water. Get medical attention if irritation persists after washing.

Eye contact
Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

Most important symptoms and effects, both acute and delayed

General information
The severity of the symptoms described will vary dependent on the concentration and the length of exposure.

Inhalation
Vapors may cause headache, fatigue, dizziness and nausea.

Ingestion
May cause stomach pain or vomiting. Headache.

Skin contact
Prolonged or repeated contact with skin may cause irritation, redness and dermatitis.

Eye contact
Irritating to eyes. Symptoms following overexposure may include the following: Redness. Pain. Irritation and redness, followed by blurred vision.

Indication of immediate medical attention and special treatment needed

Notes for the doctor
No specific recommendations. If in doubt, get medical attention promptly.

5. Fire-fighting measures

Extinguishing media

Suitable extinguishing media
Extinguish with the following media: Powder. Dry chemicals, sand, dolomite etc. Water spray, fog or mist.

Unsuitable extinguishing media
Do not use water jet as an extinguisher, as this will spread the fire.

Special hazards arising from the substance or mixture

Specific hazards
Containers can burst violently or explode when heated, due to excessive pressure build-up. Containers can burst violently or explode when heated, due to excessive pressure build-up. Oxides of carbon. Protection against nuisance dust must be used when the airborne concentration exceeds 10 mg/m3.

Hazardous combustion products
Oxides of carbon. Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapors.

Advice for firefighters

Protective actions during firefighting
Containers close to fire should be removed or cooled with water. Use water to keep fire exposed containers cool and disperse vapors. Bursting aerosol containers may be propelled from a fire at high speed.

Special protective equipment for firefighters
Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Personal precautions
Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Unless the assessment indicates a higher degree of protection is required, the following protection should be worn: Tight-fitting safety glasses.
DC1 - NO-CLEAN FLUX REMOVER - VERICLEAN, AEROSOL

Environmental precautions
Do not discharge into drains or watercourses or onto the ground.

Methods and material for containment and cleaning up

Methods for cleaning up
Wear suitable protective equipment, including gloves, goggles/face shield, respirator, boots, clothing or apron, as appropriate. If leakage cannot be stopped, evacuate area. Eliminate all sources of ignition. No smoking, sparks, flames or other sources of ignition near spillage. Provide adequate ventilation. Absorb in vermiculite, dry sand or earth and place into containers.

Reference to other sections
See Section 11 for additional information on health hazards.

7. Handling and storage

Precautions for safe handling

Usage precautions
Keep away from heat, sparks and open flame. Avoid spilling. Avoid contact with skin and eyes. Provide adequate ventilation. Avoid inhalation of vapors. Use approved respirator if air contamination is above an acceptable level.

Conditions for safe storage, including any incompatibilities

Storage precautions
Aerosol cans: Must not be exposed to direct sunlight or temperatures above 50°C.

Specific end use(s)
Cleaning agent.

Reference to other sections
Store away from incompatible materials (see Section 10).

8. Exposure Controls/personal protection

Control parameters

Occupational exposure limits
HFC-134a Tetrafluoroethane
Long-term exposure limit (8-hour TWA): OES 4240 mg/m³

1-METHOXY-2-PROPANOL
Long-term exposure limit (8-hour TWA): ACGIH 50 ppm 184 mg/m³
Short-term exposure limit (15-minute): ACGIH 100 ppm 369 mg/m³

A4

ACGIH = American Conference of Governmental Industrial Hygienists.
A4 = Not Classifiable as a Human Carcinogen.

Additional Occupational Exposure Limits

Ingredient comments
WEL = Workplace Exposure Limits

Exposure controls

Protective equipment

Appropriate engineering controls
Provide adequate general and local exhaust ventilation.
Eye/face protection
Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Unless the assessment indicates a higher degree of protection is required, the following protection should be worn: Tight-fitting safety glasses.

Hand protection
Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible. It is recommended that gloves are made of the following material: Nitrile rubber. Polyvinyl alcohol (PVA). Viton rubber (fluoro rubber).

Other skin and body protection
Wear appropriate clothing to prevent any possibility of liquid contact and repeated or prolonged vapor contact.

Hygiene measures
Do not smoke in work area. Wash at the end of each work shift and before eating, smoking and using the toilet. Promptly remove any clothing that becomes contaminated. When using do not eat, drink or smoke.

Respiratory protection
No specific recommendations. Respiratory protection must be used if the airborne contamination exceeds the recommended occupational exposure limit.

### DC1 - NO-CLEAN FLUX REMOVER - VERICLEAN, AEROSOL

**Oxidizing properties**
There are no chemical groups present in the product that are associated with oxidizing properties.

**Comments**
Aerosol.

**Refractive index**
No information available.

**Particle size**
No information available.

**Molecular weight**
Not applicable.

**Volatile**
100%

**Saturation concentration**
No information available.

**Critical temperature**
No information available.

**Volatile organic compound**
This product contains a maximum VOC content of 87 g/litre.

**Flammability**
Flammable aerosol.

### 10. Stability and reactivity

**Reactivity**
There are no known reactivity hazards associated with this product.

**Stability**
Stable at normal ambient temperatures.

**Possibility of hazardous reactions**
Will not polymerize.

**Conditions to avoid**
Avoid heat, flames and other sources of ignition.

**Materials to avoid**

**Hazardous decomposition products**
Oxides of carbon. Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapors. Vapors/gases/fumes of: Silicon dioxide Formaldehyde

### 11. Toxicological information

#### Information on toxicological effects

**Other health effects**
There is no evidence that the product can cause cancer.

**Inhalation**
May cause respiratory system irritation. Vapors may cause headache, fatigue, dizziness and nausea. Prolonged inhalation of high concentrations may damage respiratory system.

**Ingestion**
No harmful effects expected from quantities likely to be ingested by accident.

**Skin Contact**
Product has a defatting effect on skin. May cause skin irritation/eczema.

**Eye contact**
Irritating to eyes.

#### Toxicological information on ingredients.

**HEXAMETHYLDISILOXANE (Methyl siloxane)**

<table>

</table>

**Inhalation**
Vapors irritate the respiratory system. May cause coughing and difficulties in breathing.

**Ingestion**
May cause stomach pain or vomiting. May cause nausea, headache, dizziness and intoxication.

**Skin Contact**
May cause allergic contact eczema. Contact with liquid form may cause frostbite.

**Eye contact**
May cause temporary eye irritation.

12. **Ecological Information**

**Ecotoxicity**
Not known.

**Toxicity**
Very toxic to aquatic organisms.

**Ecological information on ingredients.**

**HEXAMETHYLDISILOXANE (Methyl siloxane)**

**Toxicity**
Very toxic to aquatic organisms.

**Acute toxicity - fish**
LC₅₀, 96 hours: 0.46 mg/l, Fish

**Acute toxicity - aquatic invertebrates**
EC₅₀, 72 hours: 0.79 mg/l, Daphnia magna

**Acute toxicity - aquatic plants**
EC₅₀, 96 hours: > 0.93 mg/l, Selenastrum capricornutum

**HFC-134a Tetrafluoroethane**

**Acute toxicity - fish**
LC₅₀, 96 hours: 450 mg/l, Fish

**Acute toxicity - aquatic invertebrates**
EC₅₀, 48 hours: 980 mg/l, Daphnia magna

**Persistence and degradability**
The degradability of the product is not known.

**Bioaccumulative potential**
Bioaccumulation is unlikely to be significant because of the low water-solubility of this product.

**Partition coefficient**
No information available.

**Ecological information on ingredients.**
DC1 - NO-CLEAN FLUX REMOVER - VERICLEAN, AEROSOL

HFC-134a Tetrafluoroethane

Partition coefficient Pow: 1.06

Mobility in soil

Mobility

Not considered to be a significant hazard due to the small quantities used.

Other adverse effects

Other adverse effects

The product contains a substance which has a photochemical ozone creation potential.

13. Disposal considerations

Waste treatment methods

General information

Reuse or recycle products wherever possible.

Disposal methods

Empty containers must not be punctured or incinerated because of the risk of an explosion. Reuse or recycle products wherever possible. Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.

14. Transport information
